```
File Edit Selection View Go Run Terminal Help
style.css - SRC3 - Visual Studio Code (Administrator)
index.html style.css x
# style.css > div
1 body {
2   background-color: #f0f0f0;
3   display: flex;
4   align-items: center;
5   justify-content: center;
6   flex-direction: column;
7 }
8
9
10
11 img {
12   height: 240px;
13   border-radius: 20px;
14   margin: 10px;
15 }
16
17 div {
18   background-color: #f0f0f0;
19   width: 400px;
20   margin: 50px;
21 }
22
23
```

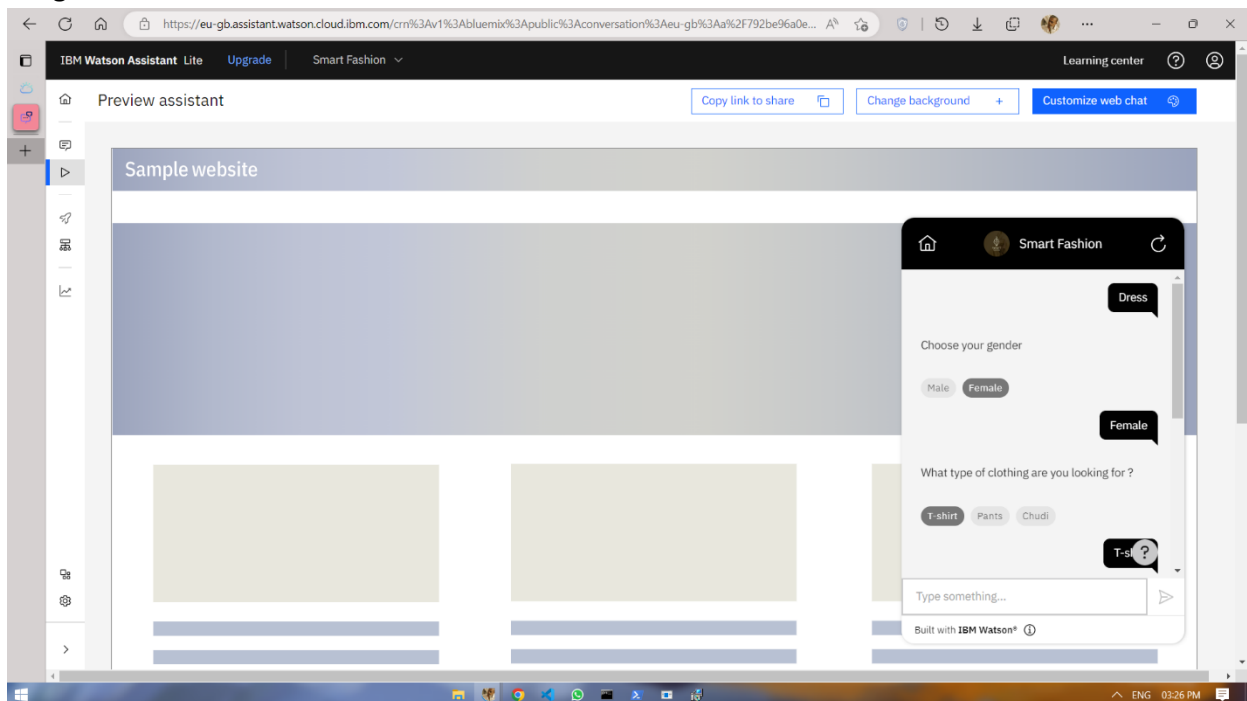

Output:-

4. Design a Chabot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as an assignment.

Url :- [chatbot link](#) <- click

Image:-

5. Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

The screenshot displays the IBM Watson Assistant configuration interface. On the left, a 'Dress' dialog is shown with 10 steps. Step 1 asks for gender (Male/Female). Step 2 asks for clothing type (T-Shirt/Pants). Step 3 asks 'Guess this suits you perfectly!!!' with Yes/No buttons. Step 4 asks 'Are you sure want to check-out?'. The right panel shows 'Step 3 is taken with conditions'. It lists two conditions: '2. What type of clothing are you searching for? is T-Shirt' and '1. Choose your gender is Male'. Below the conditions, the 'Assistant says' section shows a response: 'Mens T-Shirt' and 'Guess this suits you perfectly!!!'.

The screenshot shows a web browser at the address 127.0.0.1:5500/index.html. The page has a title 'Welcome To Smart Fashion'. It features a grid of six images: a person in jeans, a person in a black t-shirt, a person in a yellow dress, a person in a white t-shirt, and a pair of white shoes. On the right side, there is a chat interface with a header 'Hi! This is Smart Fashion Recommender. How can I help you?'. Below the header are two buttons: 'Dress' and 'Complements'. At the bottom of the chat interface is a text input field with the placeholder 'Type something...' and a send button. The footer of the chat interface says 'Built with IBM Watson®'.
